I hereby acknowledge that I have read the <u>application</u> and state the above information is correct and agree to comply with all zoning regulations, subdivision covenants, city ordinances, state laws, and the most current International Building Codes regarding building construction. It is the owner's responsibility to ask for and acquire any of the covered ordinances, laws and/or codes necessitated by this permit. This document shall not serve as an approved Building Permit. A separate permit document will be provided when all plans are submitted and approved in accordance with the Zoning and Building Code of the City of Eupora.

Signature of Applicant:	Date:					
	REPORT OF SPECIAL OR UNUSUAL CONDITIONS					
Approved by:	Date:					

Any Building Permit Issued by the City of Eupora in accordance with the local Building and Zoning Ordinance shall become invalid if the work authorized by it has not commenced within ninety (90) days after the issuance of the permit and/or if continuous work has ceased for ninety (90) days or more. The determination of continuous work shall be based on observations by and the opinion of the Building Official. All building permits shall expire one (1) year after the issue date.

Residential Permitting Requirements –Permits required:

- (1) Any addition or alteration more than two thousand and five hundred dollars (\$2500).
- (2) Any dwelling units including accessory dwellings regardless of square footage.
- (3) Any addition, alteration, modification, demolition, or improvement that includes electrical, plumbing, and/or structural work.

Residential Permitting Requirements –Permits exempt:

- (1) Re-roofing
- (2) Platforms, decks, walks, and driveways not exceeding thirty (30) inches above grade.
- (3) Prefabricated above ground swimming pools, less than 24" in depth and does not exceed five thousand (5,000) gallons.
- (4) Direct window replacement with no structural changes (unless structure is in the City of Eupora Historic District. Certificate of Appropriateness is required in a historic district).
- (5) Painting, papering, tiling, carpeting, installation of cabinets or countertops, and similar finish work.

Commercial Permitting Requirements:

For commercial and mixed-use developments any construction or alteration more than one thousand (\$1,000), or for demolition, a permit is required.
